Test Results Available

[2015 Test Results](#) are now posted on the Products section of our website [here](#). We have created a new [Produce results folder](#), and have included an example below:

SoilBiotics' products are making a big difference in yield with markedly better results in this 2015 California Broccoli crop.

A substantially larger stalk size and root system is indicated (as shown on the right), increasing overall yield.

This image shows the smaller control crop plants on the left and SoilBiotics treated plants on the right.

The SoilBiotics program consisted of the following products & amounts, delivered through a drip irrigation system:

- 14 pounds per acre of organic Nitrogen
- 1 gallon per acre of **Organic 3r - Growth Boost**
- 1 gallon per acre of **CAL-10**

Go GREEN with SoilBiotics!

As of June 1st SoilBiotics will be emailing invoices. Add debi@soilbiotics.com to your contacts to ensure you received your invoices. Check your junk or spam boxes in case emails end up in the wrong box.

Want to set up an electronic payment? Inquire with your financial institution to pay SoilBiotics invoices online! SoilBiotics does not accept wire transfers from companies within the United States.
