

21Ca + 17S

Guaranteed Analysis:

Calcium (Ca)	21%
Sulfur (S)	17%
17% Combined Sulfur (S)	

Derived from: Calcium Sulfate Dihydrate

This Product:

- Is a granular Calcium-Sulfate product which also doubles as a soil amendment with dust free handling
- Maximizes nutrient uptake and enhances microbial activity
- Spreads evenly in one pass, saving time and money. Spreading uniformly 60-70 feet
- Retains hardness and shape in heat and humidity
- Works well with other inputs for easy blending and application. Compatibility test is recommended
- May be blended with dry fertilizers or applied as a stand-alone product
- Has high solubility for immediate impact, working immediately on contact with soil providing immediate nutrition
- Phosphorous – free for P-sensitive and P-restricted zone
- Provides formulation flexibility allowing one to provide correct nutrition without overlapping Potassium and Phosphorous
- Has pH of 7-8
- SGN: 250-280
- Bulk Density: 58-60 pounds per cubic foot
- Crush strength > 5 pounds and uniformity Index at >50
- Should be used within the growing season it is was purchased.

Directions for Conventional Agricultural Use:

- Apply as stand-alone product at 100 to 200 pounds per acre or based on needs of crop as directed by SoilBiotics sales rep or consulting your crop specialist.

Net Weight: 1 US Ton/.907 Metric Ton
