

THE DIRT!

SOILBIOTICS COMPANY E-NEWSLETTER

DECEMBER 2017

And to All.. A Good (YouTube) Night

Sincere thanks for your support this past year and best wishes to you and your families for a wonderful holiday season and a great 2018 from the SoilBiotics team! And now a little YouTube Christmas magic:

And for all of you of a certain age, we thought you might like a little blast from the past for Christmas. Maybe you remember him as Grandpa Amos from *The Real McCoys*, as Stumpy fighting side-by-side with John Wayne and Dean Martin in *Rio Bravo*, or as Deadeye on our personal favorite - the *Red Skelton Show*. We hope you enjoy this clip:

Thinking About a Seed Treatment for 2018? Then Look to SoilBiotics

SoilBiotics **1 – Seed Treatment** and **Organic 1r – Seed Treatment** are non-polymer liquid Humic products that are applied to seeds up to 5 month's pre-plant. These treatments cover and penetrate the seed coat to desiccate germination inhibiting spores (fungal pathogens), thereby increasing the ability of seedlings to quickly outgrow insect and disease pressure, plus reducing the need for fungicides and insecticides. Take a look at the **Trials & Results** page on our website http://soilbiotics.com/Products/Trials_and_Results and you'll see that 7 of 17 documents posted in our 2016 Research for Results studies feature our seed treatments, allowing you to see results over a wide variety of crops. See your seedling stand counts increase by 5 to 20 percent, and improve overall crop yield potential! Call your SoilBiotics sales representative or the office and ask about **1 – Seed Treatment** and **Organic 1r – Seed Treatment**.

Upcoming Shows

Come talk to the SoilBiotics team at these upcoming shows:
